THE SCIENCE OF SURVIVAL

ACR ResQLink+™

406 MHz GPS Buoyant Personal Locator Beacon

At 5.4 oz, the ResQLink+™ weighs less than a couple of PowerBars®. And topping at just 11.4 cm, it's smaller than the cell phone in your pocket. Small and mighty, the ResQLink+™ is a full-powered, GPS-enabled rescue beacon designed for boaters, pilots and water-borne sportsmen.

With three levels of integrated signal technology —GPS positioning, a powerful 406 MHz signal, and 121.5 MHz homing capability — the ResQLink+™ quickly and accurately relays your position to a worldwide network of

search and rescue satellites. A built-in strobe light provides visibility during night rescues PLBs have been proven tried and true in some of the world's most remote locations and treacherous conditions.

Even in extreme conditions and situations, the ResQLink+™ activates easily. Just deploy the antenna and press the ON button. With its powerful 66 channel GPS, the ResQLink™ guides rescuers to within 100 meters or less of your position with the addition of GPS.

Two built-in tests allow you to routinely verify that the ResQLink+™ is functioning and ready for use— with the push of a button, you can easily test internal electronics and GPS functionality.

SPECIFICATIONS

Product Number	2881
Model Number	PLB-375 (ResQLink+)
Size	4.1 x 4.8 x 11.4cm
Weight	153 g
Battery	Non-hazmat lithium batteries
Class	Class 2 Operation @-20°C
Battery, Replacement Interval	Replacement due six (6) years from date of manufacture or five (5) years after beacon is placed into service, whichever is first, or after emergency use
Operational Life	Exceeds 24 Hours @ -20°C
Storage	-30°C to +70°C
Material	Engineered polycarbonate blend
Color	ACR-treuse™ (high visibility yellow)
Activation	Manual
Operation	2 steps: deploy antenna, press ON button. Give clear view of sky
Waterproof	5 m @ 1 hr., 10 m @ 10 min. Factory tested @21°C, exceeds RTCM waterproof requirements
Buoyant	Yes*
Approvals	Cospas-Sarsat, FCC, Canada, R&TTE, AMSA
Limited Warranty	5 years
Lead Free	Yes

The ResQLink+ is a satellite signaling device of last resort, for use when all other means of self rescue have been exhausted, where the situation is grave and imminent and the loss of life, limb, eyesight, or valuable property will occur without assistance.

*The ResQLink+ is a buoyant PLB but is not intended for operation in water. Intended operational environments include on ground and above ground including held in hand. In all cases, the beacon must be facing skyward with the antenna perpendicular.

It is mandatory that you register your beacon. Visit www.acrartex.com/support/registrations/ to find the appropriate registration agency in your country. When activated, the unique identification code in your beacon is linked to the registration database. This way authorities can retrieve valuable information about you and your trip.
